DETAILED ACTION

Reasons for Allowance

The following is a statement of reasons for the indication of allowable subject matter:

Claim 9 is allowed. Applicant's arguments on claim 9 and its dependent claims were fully considered and persuasive. Particularly, prior art of record lacks the suggestion that each optical fiber corresponds to one luminous element and surrounds a circumference of the luminous element as illustrated in at least Fig. 6. It is the examiner's position that prior art taken alone or in combination, fails to disclose or render obvious such a limitation, in combination with the rest of the limitations of claim 9.

Claims 10-12 are allowed as dependent claims of allowed claim 9.

Claim 13 is allowed. Yamashita teaches a light source device having a light guiding plate, two primary light sources on both sides of the light guiding plate, and a reflecting plate below the light guiding plate. Yamashita does not teach a second reflecting plate and second optical fibers to connect the main and sub light-guiding plates. The examiner finds no obvious motivation for multiplicity of these integral parts as the design of the instant application is different from Yamashita and available prior art. It is thus the examiner's position that the prior art of record, taken alone or in combination, fails to disclose or render obvious these limitations, in combination with the rest of the limitations of the claim.

Claims 14 and 15 are allowed by virtue of being dependent upon allowed claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
